Dear Sr. Caroline,

I am writing to offer my great appreciation for the Digital Discipleship Boot Camp that we took part in last winter. Both Rose Mary Saraiva, Event Coordinator for the office, and I enjoyed the experience and came away with great ideas on how to enhance our ministry with technology.

My ultimate goal in taking part in the DDBC was to model for the catechetical leaders of our diocese how easy it is to incorporate web 2.0 tools into their programs. The capstone project that I completed demonstrated to them the value of these tools, and piqued their interest in learning more. The tools presented in the DDBC serve as the foundation on which to build a greater knowledge of the potential use of web-based technology for our catechetical programs. We are now exploring ways to incorporate this valuable training into the formation of our catechetical leaders.

Thank you for staying on top of the latest innovations in educational technology and keeping us on the cutting edge.

Sincerely yours in Christ,

Claire M. McManus, STL
Director of the Office of Faith Formation
